

Redefining Autonomous Aerospace

Developing hypersonic autonomous UAV platforms powered by Quantum AI, with blockchain-secured mission control and integrated vacuum propulsion systems.

The Problem & Our Solution

The Problem

Centralized UAVs fail under jamming, latency, or single-point failures.

Our Solution

Autonomous, decentralized, secure UAV swarms with Quantum-secured decision systems.

Technology Advantage

Swarm OS

Multi-agent reinforcement learning for decentralized swarm control

Quantum Security

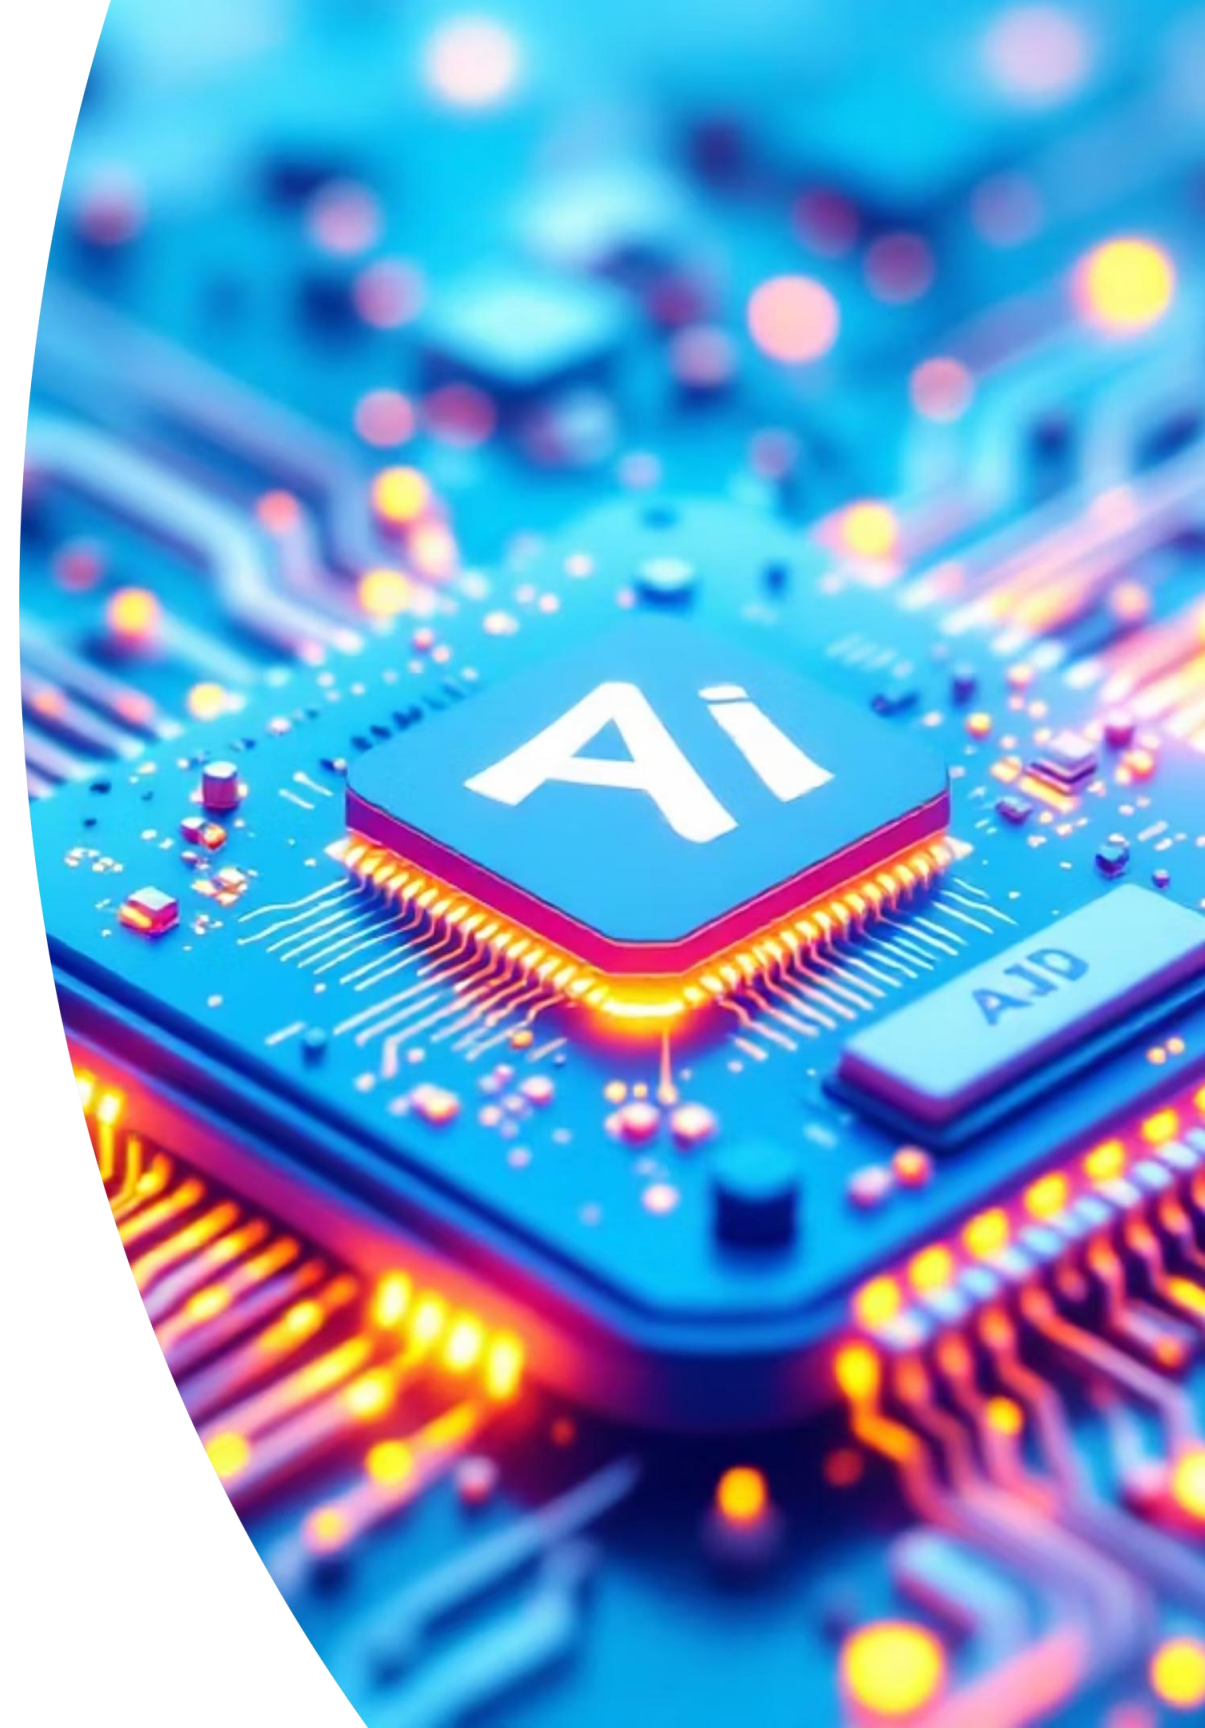

Embedded quantum RNG for secure decision systems

Blockchain Integration

Mission logging and coordination secured by blockchain

Propulsion R&D

Jet & vacuum pumps propulsion for high-speed missions

Product Portfolio

- **Quantum-secure control PCB**
- Swarm OS software
- Jet & Vacuum UAVs
- Supersonic/suborbital UAVs

Addressing an €80B+ global UAV market across defense, logistics, and non-defense sectors.

Business Model & Tokenomics

DRN Token

ERC-3643 compliant with
KYC/AML enforcement

100M

ERC-3643 JV Tokens

Profit Sharing

50% of annual net profits
distributed to token holders

86%

Distributed to community

Token Benefits

Governance rights, anti-dilution
protection, and buyback program

50%

Profit Rights to Holders

Funding & Roadmap

1

Phase 1: €1M

Full Q-OS kernel v0.1 and federated node, HiL.

2

Phase 2: €4M

Hardware DevKit V1

3

Phase 3: €95M

Validated H-L.E.V. and Licensing

Expert Team

Florin Scripcă

CEO

- Law, governance, tech, business expertise.
- [LinkedIn Profile](#)

Cristian Doroftei

Research Team

- Focus on Electronics, Electricity and ITC.
- [LinkedIn Profile](#)

Dr. Kumar Arun

Research Team

- Specialist in Fractal Geometry and Nanogeneseq Chip.
- [LinkedIn Profile](#)

Dr. Kumar Ajith

Research Team

- Expert in Nanogeneseq Chip and Helinaser technology.
- [LinkedIn Profile](#)

Ciprian N. Filip

Specialist

- AI, blockchain, tokenization expert.
- [LinkedIn Profile](#)

Mikael Jean David Mayla

Specialist

- Law and crypto asset specialist.
- [LinkedIn Profile](#)

Why Invest Now

1

First-Mover Advantage

Pioneering technology in an emerging market

2

Regulatory Aligned

Compliant with current and emerging standards

3

Massive Market Potential

€80B+ global UAV market with growing demand

4

Token Upside & Profit-Sharing

Direct financial benefits for investors

Thank You!

Join us in building the future of autonomous aerospace.
